# PLAN SETTLEMENT OF CABLE INTERESTS

International Conference Determine American and British Rights.

PROBE MONOPOLY CHARGE

McAdoo and Lansing Retained to Protect Claim of U. S. Companies.

WASHINGTON, Sept. 16.—Two former members of the President's Cabinet, it became known to-day, have been re-tained to represent the interests of the American telegraph and cable companies at the international communications conference to be held in Washington

W. G. McAdoo, former Becretary of as counsel, while Robert Lansing, former Secretary of State, and Lester H. Woolsey, former counsellor of the State Department, have been reby the Postal Tolegraph and Cable Company. Elihu Root, Jr., son of the former Secretary of State, is ex-Cable Company. pected to represent the interests of All-America Cables, Incorporated.

From the character of the international communications conference and the important commercial and political significance of the decisions expected to be made, other prominent international lawyers in the United States probably will be present at the conference to represent American interests.

#### Conflicting Interests Arise.

Some of the questions at issue at the conference, officials said to-day, are such as to involve not only conflicting in ternational interests, but interests which tend to divide American comternational panies. For the sake of American claims to be presented it has been the effort of Government officials to attempt to settle in advance all disputes between the domestic companies in order to present a united front at the con-

Mr. McAdoo, as counsel for the Western Union Company, already has com-plied with a request of the State Department that the contract between the British Western Telegraph Company and the Western Union Company for the construction of a cable connecting the east crast of South America with the United States be made known to the American Government. It was pending filing the contract with the State Department that President Wilson refused to grant the Western Union Company permit for the landing of a cable at Miami, Fla., connecting with the British cable at Barbados, and to prevent an unauthorized landing ordered American destroyers off the coast of Miami.

While the contract as yet had no been made public by the State Department, officials said to-day that its provisions are not as objectionable to American interests as those tentatively icated to All-America Cables by the Western Union Company in an effort induce All-America Cables to enter the combine and to partition the South

## Offered Cable Monopoly.

Officials said to-day the British Western Telegraph Company originally offered All-America Cables a monopoly of all cable business on the west coast of South America, where the latter company has been operating exclusively for some years, in return for an agreement that All-America Cables would not com-pete, as contemplated, with the British Western Telegraph Company on the east

It was planned by the British com-Company, according to officials, not only to construct a cable from Para, Brazil to the Barbadoes and thence to Miami but, in the event of a refusal of All America Cables to enter the agreement, to invade the Western coast of South America. It was to prevent this threat of the continuance of the monopoly ex-ercised by the British for some years on the Eastern coast of South America that the United States, it has been said. refused the issuance of a permit to the Western Union to land a cable at Miami from the Barbadoes until the cable situation in South America had been thoroughly investigated and the nature of the contract entered into between the Western Union and the British company had been put in possession of the State

Officials would not say to-day whether examination of the contract had removed all the difficulties attending the grant of a permit to the landing of a cable, but the destroyers despatched to prevent a cable landing recently were recalled

## SEES NEED OF OPEN MARKET.

Gov. Harding of Reserve Board Discusses Foodstuffs Situation.

CLEVELAND, Sept. 16. - Consumers of foodstuffs must be prepared to pay prices that include reasonable profits and farmers must continue a policy of securing full production and moderate prices if the nation is to work its way out of the present economic dilemma, Gov. Harding of the Federal Reserve Board said to-night in an address here. Discussing the function of the Fed-

eral Reserve system, Gov. Harding de-clared that its credit resources should be available through banks to the extent necessary for moving crops, but that use of its credits for holding crops off markets and thereby advancing prices would bring economic, disaster. One of the greatest needs of the nation, Mr. Harding said, "is an open market, where the old law of supply and demand is given free play."

## CALLS COX CHARGE 'WIND.'

Treasurer Upham Scoffs at \$25,-000,000 Named as Campaign Fund

"More millwind work," was the comment made yesterday on the boost to twenty-five or thirty millions given to the mythical Republican campaign fund by Gov. Cox. commentator was Frederick W.

"Cox is getting nowhere with his charges," he added. "Even the Democratic Senators, Reed and Pomerene, were disgusted with their flimsiness We have 40,000 subscribers. When I was summoned before the Senate committee I had the list with me. Democratic treasurer was asked to pro-duce his list he professed to be surprised. Said he thought it would not be wanted. We are going ahead with our work under the original plan."

## TAFT WILL TAKE STUMP.

William Howard Taft will devote two weeks, probably the last two, to campaigning for Harding and Coolidge, it was announced at Republican national headquarters yesterday. One will be spent in New York State and the other

week in various States. Elihu Root and Charles Evans Hughes will also speak at the Madison Square Garden meeting here, for which Senator Harding will come East the latter part of October.
